The Joomla! team has about 1 million good reasons to be smiling about the Joomla! 1.5. In its current incarnation, it's had more than 1 million downloads, taking it to an unprecedented level of popularity. The new code base is almost an entire re-factor of the old code base. The user experience is still extremely slick but for developers the API is a dream. A proper framework for real PHP architects seeking the best of the best.

Our developers and interface designers have worked countless hours to make this the most exciting release in the content management system sphere.
